

NATIONAL AI INSTITUTE WEBSITE

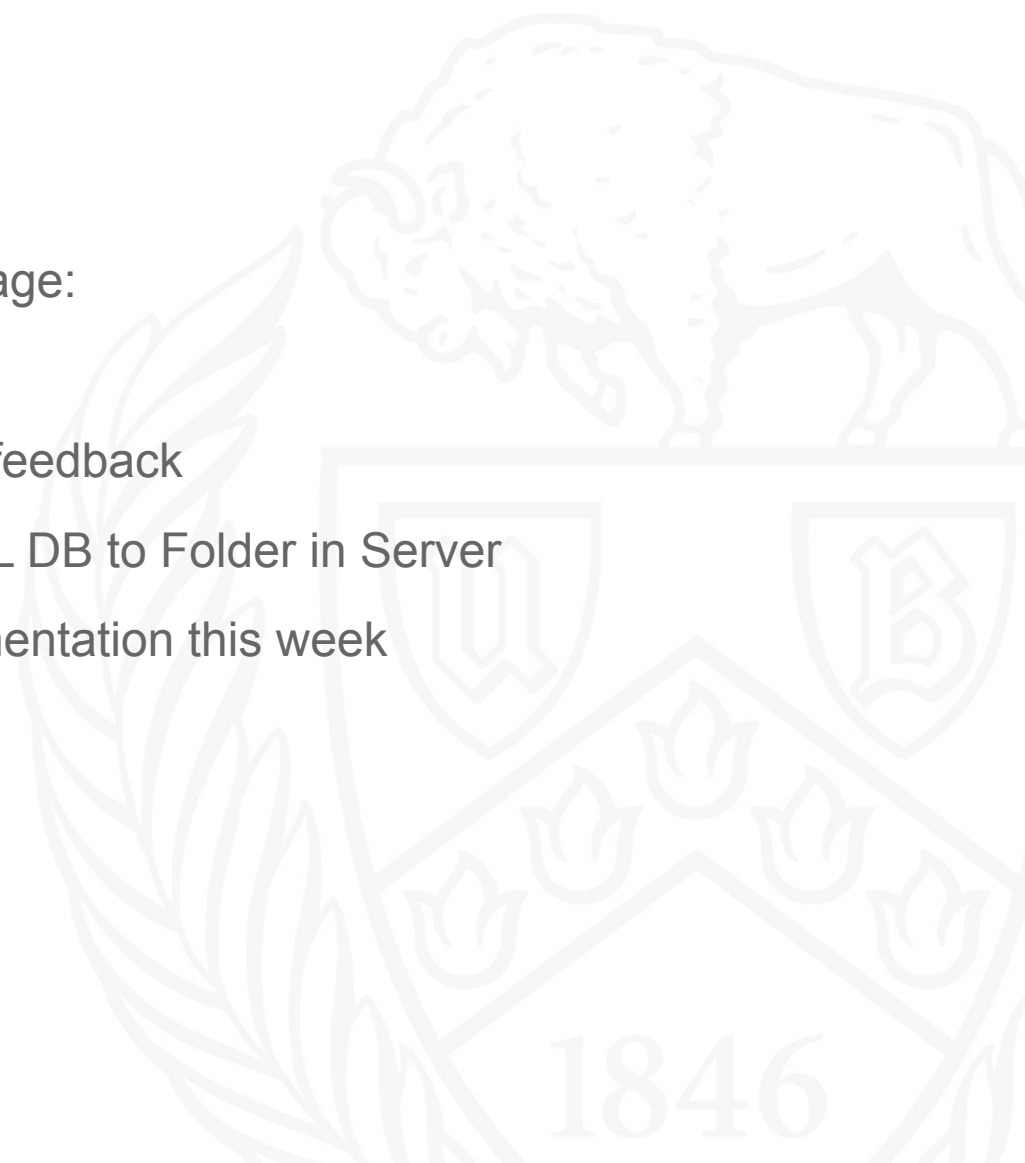

Weekly Progress - 7th November

Since Last Meeting

Dhaval - Admin Portal

- a. Updated the Add and Edit functionality for both events page:
 - i. Added the Date Time feature as per feedback
 - ii. Updated the Button text to “Edit” and “Save” as per feedback
 - iii. Changed the saving of files mechanism from MySQL DB to Folder in Server
 - iv. Looked into Calendar View for Events Page, implementation this week

Since Last Meeting

Divya - Web scraping

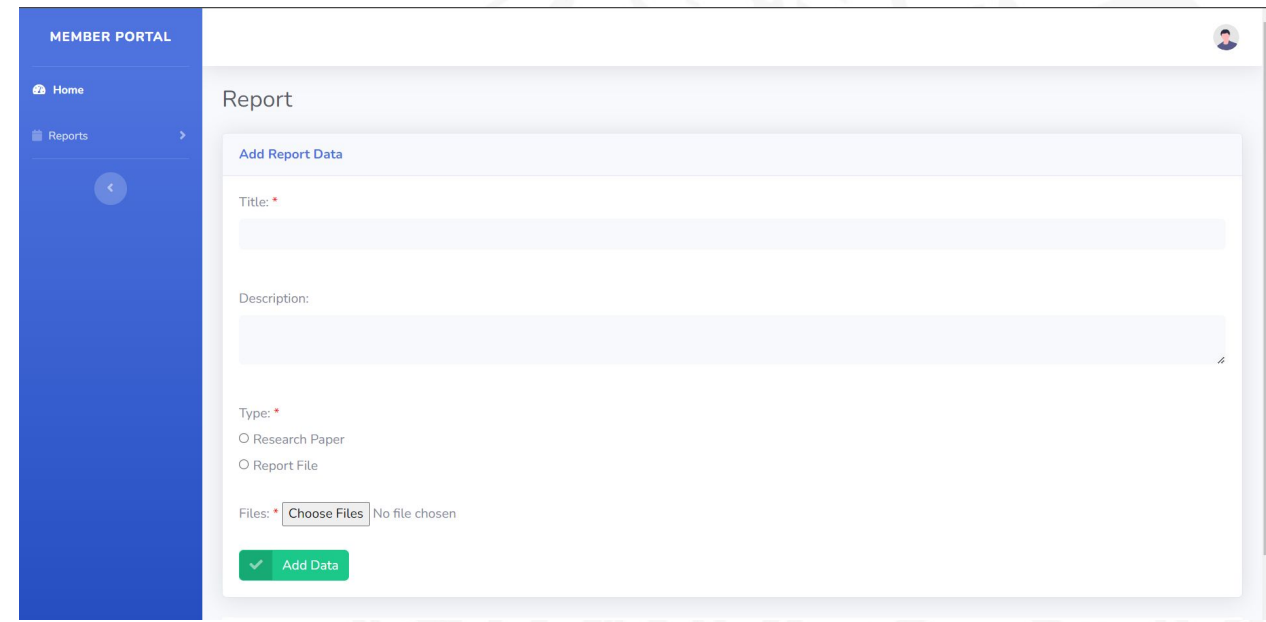

1. Populated initial db for all members with publication details - over 7000 records
2. Worked on script to pull data from dblp - only publication name, year is being fetched
3. Updated filtering from backend as per feedback, working on front end work
4. This week:
 - a. IEEE access keys have been approved today, will work on script for IEEE
 - b. Work on filtering logic to display publications in front end

Since Last meeting

Shubham: Member portal dashboard, reports UI updated

Member portal: Dashboard content

Member portal: Radio button added to report

Kashyap Soni

Since Last Week:

- Completed testing the API endpoints
- Completed integration testing with database
- Started working on containerizing the application with Docker
- Working on deploying the container on Kubernetes

```
code > .dockerfile > ...
1 FROM python:3.9
2
3 WORKDIR /app
4
5 COPY requirements.txt .
6
7 RUN pip install -r requirements.txt
8
9 COPY . .
10
11 EXPOSE 80
12
13 CMD ["uvicorn", "main:app", "--host", "0.0.0.0", "--port", "80"]
14
```
